NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2021

The financial statements cover the business of Las Vegas Properties Management Pty Ltd and have been prepared to meet the needs of stakeholders and to assist in the preparation of the tax return.

Comparatives are consistent with prior years, unless otherwise stated.

1 Basis of preparation

Las Vegas Properties Management Pty Ltd is non-reporting since there are unlikely to be any users who would rely on the general purpose financial statements.

The special purpose financial statements have been prepared in accordance with the significant accounting policies described below and do not comply with any Australian Accounting Standards unless otherwise stated.

The financial statements have been prepared on an accruals basis and are based on historical costs modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Significant accounting policies adopted in the preparation of these financial statements are presented below and are consistent with prior reporting periods unless otherwise stated.

2 Summary of significant accounting policies

Income tax

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at the end of reporting period.

Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Revenue and other income

Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term investments which are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

Provisions

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.
