Note: This report only relates to the Portfolio under Administration (i.e. it does not include the effect of any Retail Managed Fund holdings or Other Assets). The effect of any capital gains/losses accumulated outside of the Service are not reflected in this report.

The account cost base method applied for tax year 2018/2019 is FIFO (first in first out).

Details for parcels held prior to commencement with the service are based on information supplied to us by you or your adviser.

Footnotes

1- Until year end tax statements are received from Product Issuers and processed, Adjusted Cost has not taken into account any non-assessable distributions paid during the financial year. The issuing of your Tax Return Report is dependent on receipt of the year end tax statements and can be used as reference for the finalised Adjusted Cost.
