## Simple tips for keeping your banking secure

We're a bank. So your security and privacy is what matters most. Check out these handy tips we've put together to help protect you and your accounts.

### Treat your details like royalty

Your password, PIN, and security codes are the keys to your banking with us. Our advice? Don't share them with anyone – not even our staff. But here's how you can really up the ante:

- Make your password / PIN difficult to guess. When choosing a password, use a combination of letters, numbers and characters, and don't choose something that's easily identified with you (like your name, phone number or address). For PINs, don't use your DOB
- Avoid using the same password / PIN for everything, especially for sites that are less secure
- Memorise your password / PIN and change them frequently
- Don't make it easy for fraudsters. Don't store your password / PIN on or with the devices you use to make transactions
- Keep your mobile phone secure (and if you're using fingerprint login, it should only recognise your fingerprints, and no-one else's)
- Keep your cards (and if you're using UPay, your mobile) in sight, and get receipts after every transaction
- For UBank Visa Debit cards - sign new cards, and destroy old ones
- Take care when entering your password / PIN in public. You never know who is watching ...

### Use your smarts

Banking with us means banking online. So you should always:

- Try and avoid logging in in public places
- Never leave your computer unattended and log out after each session
- Always type [ubank.com.au](http://ubank.com.au) directly into the browser
- Never log in by clicking on a link or a pop-up window
- Log on regularly to check for suspicious activity on your accounts
- Keep your anti-virus software up to date, and switch your computer updates to automatic.

## Protect yourself against scammers

Unfortunately there are people out there who'll try to get hold of your money – via authentic-looking emails, over the phone, or by SMS. Here are our tips on making sure your money stays where it belongs:

- Keep an eye on your phone – if it's stopped working, this could be a sign it's been transferred to another provider without your permission
- Watch out for romance scams – people who try and befriend you online and ask you to pay for flights or send funds to help with their “illness”
- Be aware of people asking you to open a UBank account on behalf of a friend – with your name and your account details
- Don't give your personal information to people you don't know or trust
- Don't click on pop-up ads – they could be spyware or adware
- Keep your computer clean by checking for viruses and Trojans
- Stay away from fake job advertisements – if it looks too good to be true, it probably is!
- Secure your letterbox with a lock
- Let us know immediately if you've changed address and contact details
- Shred personal documents before disposing of them

## Talk to us immediately

We're here to help, so call us on 13 30 80 if:

- Your password / PIN becomes known to any other person or is compromised
- Your card has been misused, lost or stolen
- Your computer is lost, stolen or fraudulently accessed
- You've provided any of your banking information to someone via an unsolicited email or an unknown caller
- You think you've received a scam email that pretends to be from us
- You find out about any unauthorised transaction, access or error on your accounts
- Your mobile is lost or stolen, or unexpectedly disconnected.

For more info on scams and hoaxes, visit the Australia Consumer Fraud Taskforce SCAMwatch website at [www.scamwatch.gov.au](http://www.scamwatch.gov.au). For a more detailed version of these tips, head to [www.ubank.com.au/security](http://www.ubank.com.au/security).

## One more thing

The ePayments Code details situations where you could be liable for unauthorised transactions involving your UBank Visa Debit Card, card details, password, and/or PIN. Your liability for losses is determined by the ePayments Code, rather than these tips. For more information about the ePayments Code, go to [moneysmart.gov.au](http://moneysmart.gov.au) and search 'ePayments'.
