[#] If checking your charges using the information provided above, the result may be slightly different. This is due to the rounding of the *Water Use* amounts to two decimal places. This rounding is needed so that these amounts can be shown on your Water Notice. However, to ensure charges are accurate and fair, these amounts *are not* rounded when calculating your charges.

^ What is considered High Water Consumption?

If your household is using more than 821.9 litres of water a day on average (equivalent to 300 kL a year per rateable property) then *High Consumption Charges* apply. To calculate the point after which High Consumption Charges apply, multiply the number of days covered in the bill (provided above) by 0.8219 kL per day.

Are my charges prorated?

If your bill crosses two financial years, your charges are prorated. This is to reflect the different rates applicable in each financial year.

Who must pay this account?

In accordance with the law, this account is issued in the name of the property owner(s).

If a property is being leased, then the private leasing agreement between the property owner and the tenant must determine who is responsible for paying for water charges. For legal purposes, Council is unable to discuss water bills with tenants.

Tweed Shire Council will not become involved in any disputes between property owners, body corporates or tenants around water bills.

What do I do if I cannot pay this bill by the due date?

Phone Council on 1300 292 872 or (02) 6670 2400 before the payment due date to make a payment arrangement.

How do I update my address with Council?

Phone 1300 292 872 or (02) 6670 2400 or submit an online Change of Address request on Council's website, www.tweed.nsw.gov.au.

Will I reach Target 160?

See how your household is tracking by dividing your *Average Daily Water Use* (shown on the graph on the front of this bill) by the number of people in your household. The aim is to have water use down to at least 160 litres per person per day.
