Fees explained

All fees, expenses and charges (collectively we refer to these as "fees" in this report) that your investment incurs are outlined in the offer document for the Fund. They are reflected in the value of your investment at the end of this reporting period, although they will have been deducted in two ways:

- Some are directly deducted from your account. These will be expressly set out in the transaction statement; and
- other management costs are represented indirectly in the total value of your account as they are deducted from your investment.

A\$

Fees directly deducted from your account*

0.00

Other management costs

407.25

Indirect costs of your investment

This approximate amount has been deducted from your investment and includes amounts that have reduced the return on your investment but are not charged to you directly as a fee.

Total fees you paid

407.25

This approximate amount includes all the fees and costs, which affected your investment during the period.

When considering fees it is important to consider the benefits and features of the fund in which you are invested. We recommend you seek assistance from your licensed financial adviser for this assessment.

* If, during the period, you received a rebate of commissions, the amount will be reflected in your direct costs.
