IMPORTANT MESSAGES

Complaints

We have procedures in place to properly consider and deal with any complaints within 30 days of their receipt. If you would like to make a complaint, please refer to [macquarie.com.au/feedback-and-complaints.html](https://www.macquarie.com.au/feedback-and-complaints.html), the IDPS Guide available at [macquarie.com.au/wrapofferdocs](https://www.macquarie.com.au/wrapofferdocs), our Help Centre help.macquarie.com or contact your financial adviser.

Fees and Costs

This statement does not include the fees and costs for any accessible financial products that you held during the period. You may have incurred fees and costs relating to the accessible financial products that you held during the period in addition to the fees and costs charged by the platform and disclosed in this statement. Please refer to the Macquarie Wrap IDPS Investment Menu to find further information about the estimated fees and costs of the accessible financial products, or speak with your adviser.

Non-trading/illiquid investments

Where you hold investments that are no longer trading (illiquid), we generally value these assets at the last trading price until new pricing information becomes available. If these investments have not traded for an extended period, the eventual value realised for these investments may be substantially different to the value displayed.

How does diversification help reduce risk?

Diversification of your investment portfolio can be used to limit your risk exposure to loss or underperformance of any one investment, manager or asset class. A lack of diversification can increase the risk of losses and may lead to a reduction in the amount of your savings. We recommend you discuss the suitability of diversification strategies with your adviser to ensure your portfolio remains consistent with your chosen investment strategies and risk tolerance.
