## Tax Reports

Most Tax Reports are generally sent in August. However, delays can occur as we need to receive tax information from the investment managers of all investments held in your account during the year before a report can be produced.

### NOTES ON REPORT

- 1 Any distributions or dividends paid and yet to be processed by us by 30 June 2022 will not be included in your Account Value. These will be reflected in your next report. If you need further information about your Account Value please call us on 1800 731 812.
- 2 Net Earnings is the investment return on the assets in your account after payment of any transaction costs, government charges, taxes and duties and charges relating to the management of the investment of the assets in your account.
- 3 Change in investment value represents any unrealised gains or losses on the investments you hold as a result of changes in unit prices plus any realised gains or losses from sales made during the period.
- 4 Where applicable this amount includes share transaction fees.
- 5 Fees and costs include administration fees, financial adviser remuneration (including one-off flat dollar fees where applicable), operator fees, GST, reduced input tax credits (on managed investments only) and other expenses. Investment fees are not shown as deductions from your Account – instead they're deducted from the unit price of each managed investment prior to calculating each unit's value.
- 6 These percentages show the net earnings rate of your investment after deducting fees relating to the management of your investments. Returns from 1 July 2018 do not include adviser fees. Returns prior to 1 July 2018 include all fees and costs including adviser fees where your account value was greater or equal to \$2000. For accounts below \$2000, returns did not include any fees and costs. The Net Rate of Return shows the net earnings rate of your investment after deducting fees relating to the management of your investments. The methodology used to calculate Net Rate of Return takes into account the opening and closing balances, the value and timing of the transactions and the length of time the transactions stayed in the account. All these factors together may in certain scenarios, generate large positive or small negative percentages and/or percentages with opposite signs to the reported Net Earnings on Investments.
- 7 This represents the compound average return per annum over the indicated period.
- 8 The price used was the last cumulative offer price available at the time this report was produced. In some cases prices may not be at 30 June 2022 due to non availability at date of producing this report or where investment pricing may be suspended. In these cases the investment value shown may not reflect your actual redeemable value.
- 9 This represents the estimated unrealised capital gain or loss that would have arisen for tax purposes if you sold all your investments on 30 June 2022.
- 10 Other fees and costs - This approximate amount has been deducted from your investment and covers amounts that have reduced the return on your Investments but are not charged as a fee.
