## Disclaimers

This publication reproduces materials and content owned or licenced by RP Data Pty Ltd trading as CoreLogic Asia Pacific (CoreLogic) and may include data, statistics, estimates, indices, photographs, maps, tools, calculators (including their outputs), commentary, reports and other information (CoreLogic Data).

The CoreLogic Data provided in this publication is of a general nature and should not be construed as specific advice or relied upon in lieu of appropriate professional advice.

While CoreLogic uses commercially reasonable efforts to ensure the CoreLogic Data is current, CoreLogic does not warrant the accuracy, currency or completeness of the CoreLogic Data and to the full extent permitted by law excludes all loss or damage howsoever arising (including through negligence) in connection with the CoreLogic Data.

© 2022 Copyright in this information belongs to the South Australian Government and the South Australian Government does not accept any responsibility for the accuracy or completeness of the information or its suitability for purpose.

An Estimated Value is generated (i) by a computer driven mathematical model in reliance on available data; (ii) without the physical inspection of the subject property; (iii) without taking into account any market conditions (including building, planning, or economic), and/or (iv) without identifying observable features or risks (including adverse environmental issues, state of repair, improvements, renovations, aesthetics, views or aspect) which may, together or separately, affect the value.

An Estimated Value is current only at the date of publication or supply. CoreLogic expressly excludes any warranties and representations that an Estimated Value is an accurate representation as to the market value of the subject property.

To the full extent permitted by law, CoreLogic excludes all liability for any loss or damage howsoever arising or suffered by the recipient, whether as a result of the recipient's reliance on the accuracy of an Estimated Value or otherwise arising in connection with an Estimated Value.

### How to read Estimated Value

The Confidence is based on a statistical calculation as to the probability of the Estimated Value being accurate compared to market value. The available confidence values returned are High, Medium-High, Medium, Medium-Low, and Low. An Estimated Value with a 'High' confidence is considered more reliable than an Estimated Value with a 'Medium-High', 'Medium', 'Medium-Low' or 'Low' confidence. The Confidence is a reflection of the amount of data we have on the property and similar properties in the surrounding areas. Generally, the more data we have for the local real estate market and subject property, the higher the Confidence level will be. Confidence should be considered alongside the Estimated Value.

Confidence is displayed as a coloured coded range with red representing low confidence, through to amber which represents medium confidence to green for higher confidence.
