Notes to the Financial Statements

For the year ended 30 June 2020

2020

2019

Note 1: Statement of Significant Accounting Policies

These financial statements are a special purpose financial report prepared for distribution to members to satisfy the accountability requirements of the Superannuation Industry (Supervision) Act 1993 and the trust deed. The trustees have determined that the fund is not a reporting entity.

The statements have been prepared in accordance with the requirements of the following accounting standards:

AASB 1031: Materiality

AASB 110: Events after the Reporting Period

No other Australian Accounting Standards, Urgent Issues Group Interpretations or other authoritative pronouncements of the Australian Accounting Standards Board have been applied.

The financial statements are prepared on an accruals basis. They are based on historical costs and do not take into account changing money values, or, except where specifically stated, current valuations of non-current assets.

The following specific accounting policies, which are consistent with the previous period unless otherwise stated, have been adopted in the preparation of these financial statements:

- **Measurement of Assets**

Investments of the fund have been measured at market values after allowing for costs of realisation. Changes in the market value of assets are brought to account in the income statement in the periods in which they occur.

Market values have been determined as follows:

- (i) **shares and other securities listed on the Australian Stock Exchange by reference to the relevant market quotations at the reporting date;**
- (ii) **mortgage loans by reference to the outstanding principal of the loans;**
- (iii) **units in managed funds by reference to the unit redemption price at the reporting date;**
- (iv) **insurance policies by reference to the surrender value of the policy; and**
- (v) **property, plant and equipment at trustees' assessment of their realisable value.**

- **Liability for Accrued Benefits**

The liability for accrued benefits is the fund's present obligation to pay benefits to members and beneficiaries and has been calculated as the difference between the carrying amounts of the assets and the carrying amounts of the sundry liabilities and income tax liabilities as at reporting date.

- **Income Tax Payable**

The superannuation fund adopts the liability method of tax effect accounting whereby the income tax payable shown in the operating statement is based on the operating surplus or deficit adjusted for any permanent differences.

These financial statements are unaudited. They must be read in conjunction with the attached Accountant's Compilation Report and Notes which form part of these financial statements.

2020

2019

- **Superannuation Contributions Surcharge**

The superannuation fund is recognising the superannuation contributions surcharge as an expense at the time of the receipt of an assessment from the Australian Taxation Office. The cost of the surcharge is charged to the relevant member's account.
