From 1 January 2020, we have used the exchange rates from the Reserve Bank of Australia. In previous years we have used exchange rates sourced from the Commonwealth Bank of Australia.

The Reserve Bank of Australia and the Commonwealth Bank publish rates for different countries.

If we do not publish a rate for the country or year you need, you can use an appropriate exchange rate provided by:

- a banking institution operating in Australia including, where relevant, the banking institution through which your foreign income is received
- another reliable external source.

Keep the rate used and the source of rates with your records and be mindful that you cannot obtain an average rate (or rates) of exchange from an associate, or from yourself, unless otherwise notified by us.

Our commitment to you

If you follow our information and it turns out to be incorrect, or it is misleading and you make a mistake as a result, we will take that into account when determining what action, if any, we should take.

Some of the information on this website applies to a specific financial year. This is clearly marked. Make sure you have the information for the right year before making decisions based on that information.
