Notes

1. Total performance for the account can be displayed before or after fees. Where total performance is displayed after fees, it reflects the return after any advice, licensee and administration fees you have directed us to pay on your behalf (except for adviser establishment fees), and investment management fees deducted by the responsible entity, in respect of any investments you have in a managed portfolio. Returns do not take into account tax that may be payable (apart from withholding tax).
2. The capital return reflects the return from realised plus unrealised capital gains (and losses) on this Panorama account. The income return is equal to the total performance minus the capital return.
3. Where a benchmark has been selected, the active return is calculated as the difference between the (selected) benchmark and the total performance return.
4. The account performance inception date is 23 May 2014.
5. Performance is annualised for any period longer than 1 year.
