Part A - Parties and land

Part B - Purchaser's cooling-off rights and proceeding with the purchase

Part C - Statement with respect to required particulars

~~Part D - Certificate with respect to prescribed inquiries by registered agent~~

Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired.

If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

* means strike out or omit the option that is not applicable.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

Part B - Purchaser's cooling-off rights and proceeding with the purchase

To the purchaser:

Right to cool-off (section 5)

1 - Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS -

- (a) you purchased by auction; or
- (b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or
- (c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or
- (d) you are a body corporate and the land is not residential land; or
- (e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or
- (f) the sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or
- (g) the contract also provides for the sale of a business that is not a small business.

2 - Time for service

The cooling-off notice must be served -

- (a) if this form is served on you before the making of the contract - before the end of the second clear business day after the day on which the contract was made; or
- (b) if this form is served on you after the making of the contract - before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

3 - Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

4 - Methods of service

The cooling-off notice must be -

- (a) given to the vendor personally; or
- (b) posted by registered post to the vendor at the following address:
 PO BOX 3068, PORT AUGUSTA WEST SA 5700
 (being the vendor's last known address); or
- (c) transmitted by fax or email to the following fax number or email address:
 Fax: N/A - e-mail: kylie.gilbert@johnstonwithers.com.au
 (being a number or address provided to you by the vendor for the purpose of service of the notice); or
- (d) left for the vendor's agent (with a person apparently responsible to the agent) at, or posted by registered post to the agent at, the following address:
 N/A
 (being *the agent's address for service under the *Land Agents Act 1994* / an address nominated by the agent to you for the purpose of service of the notice).

Note - Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that -

- (a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing;
- (b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5 - Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than -

- (a) the amount of any deposit paid if the deposit did not exceed \$100; or
- (b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase -

- (a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and
- (b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and
- (c) you are entitled to retain the solicitor or registered conveyancer of your choice.

Part C - Statement with respect to required particulars

Schedule - Division 1**Particulars of mortgages, charges and prescribed encumbrances affecting the land (section 7(1)(b))****Note -**

Section 7(3) of the Act provides that this statement need not include reference to charges arising from the imposition of rates or taxes less than 12 months before the date of service of the statement.

Where a mortgage, charge or prescribed encumbrance referred to in column 1 of the table below is applicable to the land, the particulars in relation to that mortgage, charge or prescribed encumbrance required by column 2 of the table must be set out in the table (in accordance with the instructions in the table) unless -

- (a) there is an attachment to this statement and -
 - (i) all the required particulars are contained in that attachment; and
 - (ii) the attachment is identified in column 2; and
 - (iii) if the attachment consists of more than 2 sheets of paper, those parts of the attachment that contain the required particulars are identified in column 2; or
- (b) the mortgage, charge or prescribed encumbrance -
 - (i) is 1 of the following items in the table:
 - (A) under the heading 1. General -
 - 1.1 Mortgage of land
 - 1.4 Lease, agreement for lease, tenancy agreement or licence
 - 1.5 Caveat
 - 1.6 Lien or notice of a lien
 - (B) under the heading 36. Other charges -
 - 36.1 Charge of any kind affecting the land (not included in another item); and
 - (ii) is registered on the certificate of title to the land; and
 - (iii) is to be discharged or satisfied prior to or at settlement.

Particulars relating to environment protection

1-Interpretation

(1) In this and the following items (items 1 to 7 inclusive)-

domestic activity has the same meaning as in the *Environment Protection Act 1993*;

environmental assessment, in relation to land, means an assessment of the existence or nature or extent of-

- (a) site contamination (within the meaning of the *Environment Protection Act 1993*) at the land; or
- (b) any other contamination of the land by chemical substances,

and includes such an assessment in relation to water on or below the surface of the land;

EPA means the Environment Protection Authority established under the *Environment Protection Act 1993*;

pre-1 July 2009 site audit, in relation to land, means a review (carried out by a person recognised by the EPA as an environmental auditor) that examines environmental assessments or remediation of the land for the purposes of determining-

- (a) the nature and extent of contamination of the land by chemical substances present or remaining on or below the surface of the land; and
- (b) the suitability of the land for a particular use; and
- (c) what remediation is or remains necessary for a particular use,

but does not include a site contamination audit (as defined below) completed on or after 1 July 2009;

pre-1 July 2009 site audit report means a detailed written report that sets out the findings of a pre-1 July 2009 site audit;

prescribed commercial or industrial activity-see item 1(2);

prescribed fee means the fee prescribed under the *Environment Protection Act 1993* for inspection of, or obtaining copies of information on, the public register;

public register means the public register kept by the EPA under section 109 of the *Environment Protection Act 1993*;

site contamination audit has the same meaning as in the *Environment Protection Act 1993*;

site contamination audit report has the same meaning as in the *Environment Protection Act 1993*.

2-Pollution and site contamination on the land-questions for vendor

- (1) Is the vendor aware of any of the following activities ever having taken place at the land:
- (a) storage, handling or disposal of waste or fuel or other chemicals (other than in the ordinary course of domestic activities)?
 - (b) importation of soil or other fill from a site at which-
 - (i) an activity of a kind listed in paragraph (a) has taken place; or
 - (ii) a prescribed commercial or industrial activity (see item 1(2) above) has taken place?

NO

If YES, give details of all activities that the vendor is aware of and whether they have taken place before or after the vendor acquired an interest in the land:

- (2) Is the vendor aware of any prescribed commercial or industrial activities (see item 1(2) above) ever having taken place at the land?
- NO

If YES, give details of all activities that the vendor is aware of and whether they have taken place before or after the vendor acquired an interest in the land:

- (3) Is the vendor aware of any dangerous substances ever having been kept at the land pursuant to a licence under the *Dangerous Substances Act 1979*?
- NO

If YES, give details of all dangerous substances that the vendor is aware of and whether they were kept at the land before or after the vendor acquired an interest in the land:

- (4) Is the vendor aware of the sale or transfer of the land or part of the land ever having occurred subject to an agreement for the exclusion or limitation of liability for site contamination to which section 103E of the *Environment Protection Act 1993* applies?
- NO

If YES, give details of each sale or transfer and agreement that the vendor is aware of:

- (5) Is the vendor aware of an environmental assessment of the land or part of the land ever having been carried out or commenced (whether or not completed)?
- NO

If YES, give details of all environmental assessments that the vendor is aware of and whether they were carried out or commenced before or after the vendor acquired an interest in the land:

Note-

These questions relate to details about the land that may be known by the vendor. A "YES" answer to the questions at items 2(1) or 2(2) may indicate that a **potentially contaminating activity** has taken place at the land (see sections 103C and 103H of the *Environment Protection Act 1993*) and that assessments or remediation of the land may be required at some future time.

A "YES" answer to any of the questions in this item may indicate the need for the purchaser to seek further information regarding the activities, for example, from the council or the EPA.

3-Licences and exemptions recorded by EPA in public register

Does the EPA hold any of the following details in the public register:

- (a) details of a current licence issued under Part 6 of the *Environment Protection Act 1993* to conduct any prescribed activity of environmental significance under Schedule 1 of that Act at the land?

NO

- (b) details of a licence no longer in force issued under Part 6 of the *Environment Protection Act 1993* to conduct any prescribed activity of environmental significance under Schedule 1 of that Act at the land?

NO

- (c) details of a current exemption issued under Part 6 of the *Environment Protection Act 1993* from the application of a specified provision of that Act in relation to an activity carried on at the land?

NO

- (d) details of an exemption no longer in force issued under Part 6 of the *Environment Protection Act 1993* from the application of a specified provision of that Act in relation to an activity carried on at the land?

NO

- (e) details of a licence issued under the repealed *South Australian Waste Management Commission Act 1979* to operate a waste depot at the land?

NO

- (f) details of a licence issued under the repealed *Waste Management Act 1987* to operate a waste depot at the land?

NO

- (g) details of a licence issued under the repealed *South Australian Waste Management Commission Act 1979* to produce waste of a prescribed kind (within the meaning of that Act) at the land?

NO

- (h) details of a licence issued under the repealed *Waste Management Act 1987* to produce prescribed waste (within the meaning of that Act) at the land?

NO

Note-

These questions relate to details about licences and exemptions required to be recorded by the EPA in the public register. If the EPA answers "YES" to any of the questions-

- in the case of a licence or exemption under the *Environment Protection Act 1993*-
 - the purchaser may obtain a copy of the licence or exemption from the public register on payment of the prescribed fee; and
 - the purchaser should note that transfer of a licence or exemption is subject to the conditions of the licence or exemption and the approval of the EPA (see section 49 of the *Environment Protection Act 1993*); and
- in the case of a licence under a repealed Act-the purchaser may obtain details about the licence from the public register on payment of the prescribed fee.

A "YES" answer to any of these questions may indicate that a **potentially contaminating activity** has taken place at the land (see sections 103C and 103H of the *Environment Protection Act 1993*) and that assessments or remediation of the land may be required at some future time.

The EPA will not provide details about licences to conduct the following prescribed activities of environmental significance (within the meaning of Schedule 1 Part A of the *Environment Protection Act 1993*): waste transport business (category A), waste transport business (category B), dredging, earthworks drainage, any other activities referred to in Schedule 1 Part A undertaken by means of mobile works, helicopter landing facilities, marinas and boating facilities or discharges to marine or inland waters.

The EPA will not provide details about exemptions relating to-

- the conduct of any of the licensed activities in the immediately preceding paragraph in this note; or
- noise.

4-Pollution and site contamination on the land-details recorded by EPA in public register

Does the EPA hold any of the following details in the public register in relation to the land or part of the land:

- (a) details of serious or material environmental harm caused or threatened in the course of an activity (whether or not notified under section 83 of the *Environment Protection Act 1993*)?
- (b) details of site contamination notified to the EPA under section 83A of the *Environment Protection Act 1993* ?
- (c) a copy of a report of an environmental assessment (whether prepared by the EPA or some other person or body and whether or not required under legislation) that forms part of the information required to be recorded in the public register?
- (d) a copy of a site contamination audit report?
- (e) details of an agreement for the exclusion or limitation of liability for site contamination to which section 103E of the *Environment Protection Act 1993* applies?
- (f) details of an agreement entered into with the EPA relating to an approved voluntary site contamination assessment proposal under section 103I of the *Environment Protection Act 1993*?
- (g) details of an agreement entered into with the EPA relating to an approved voluntary site remediation proposal under section 103K of the *Environment Protection Act 1993*?
- (h) details of a notification under section 103Z(1) of the *Environment Protection Act 1993* relating to the commencement of a site contamination audit?
- (i) details of a notification under section 103Z(2) of the *Environment Protection Act 1993* relating to the termination before completion of a site contamination audit?
- (j) details of records, held by the former South Australian Waste Management Commission under the repealed *Waste Management Act 1987*, of waste (within the meaning of that Act) having been deposited on the land between 1 January 1983 and 30 April 1995?

Note-

These questions relate to details required to be recorded by the EPA in the public register. If the EPA answers "YES" to any of the questions, the purchaser may obtain those details from the public register on payment of the prescribed fee.

5-Pollution and site contamination on the land-other details held by EPA

Does the EPA hold any of the following details in relation to the land or part of the land:

- (a) a copy of a report known as a "Health Commission Report" prepared by or on behalf of the South Australian Health Commission (under the repealed *South Australian Health Commission Act 1976*)?
- (b) details (which may include a report of an environmental assessment) relevant to an agreement entered into with the EPA relating to an approved voluntary site contamination assessment proposal under section 103I of the *Environment Protection Act 1993* ?
- (c) details (which may include a report of an environmental assessment) relevant to an agreement entered into with the EPA relating to an approved voluntary site remediation proposal under section 103K of the *Environment Protection Act 1993* ?

(d) a copy of a pre-1 July 2009 site audit report?

NO

(e) details relating to the termination before completion of a pre-1 July 2009 site audit?

NO

Note-

These questions relate to details that the EPA may hold. If the EPA answers "YES" to any of the questions, the purchaser may obtain those details from the EPA (on payment of any fee fixed by the EPA).

6-Further information held by councils

Does the council hold details of any development approvals relating to-

(a) commercial or industrial activity at the land; or

(b) a change in the use of the land or part of the land (within the meaning of the *Development Act 1993* or the *Planning, Development and Infrastructure Act 2016*)?

NO

Note-

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a **potentially contaminating activity** has taken place at the land (see sections 103C and 103H of the *Environment Protection Act 1993*) and that assessments or remediation of the land may be required at some future time.

It should be noted that-

- the approval of development by a council does not necessarily mean that the development has taken place;
- the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.

7-Further information for purchasers

Note-

The purchaser is advised that other matters under the *Environment Protection Act 1993* (that is, matters other than those referred to in this Statement) that may be relevant to the purchaser's further enquiries may also be recorded in the public register. These include:

- details relating to environmental authorisations such as applications, applicants, locations of activities, conditions, suspension, cancellation or surrender of authorisations, disqualifications, testing requirements and test results;
- details relating to activities undertaken on the land under licences or other environmental authorisations no longer in force;
- written warnings relating to alleged contraventions of the *Environment Protection Act 1993*;
- details of prosecutions and other enforcement action;
- details of civil proceedings;
- other details prescribed under the *Environment Protection Act 1993* (see section 109(3)(1)).

Details of these matters may be obtained from the public register on payment to the EPA of the prescribed fee. If-

- an environment performance agreement, environment protection order, clean-up order, clean-up authorisation, site contamination assessment order or site remediation order has been registered on the certificate of title for the land; or
- a notice of declaration of special management area in relation to the land has been gazetted; or
- a notation has been made on the certificate of title for the land that a site contamination audit report has been prepared in respect of the land; or
- a notice of prohibition or restriction on taking water affected by site contamination in relation to the land has been gazetted,

it will be noted in the items under the heading *Environment Protection Act 1993* under the Table of Particulars in this Statement. Details of any registered documents may be obtained from the Lands Titles Registration Office.

Buyers information notice

Land and Business (Sale and Conveyancing) Act 1994 section 13A

Land and Business (Sale and Conveyancing) Regulations 2010 regulation 17

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services recommends that you check the website:

www.cbs.sa.gov.au

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety**, **Enjoyment** and **Value**, but all of the issues are relevant to each heading.

Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property eg sheds and fences?
- Does the property have any significant **defects** eg **cracking** or **salt damp**? Have the wet areas been waterproofed?
- Is the property in a **bushfire** prone area?
- Are the **electrical wiring, gas installation, plumbing and appliances** in good working order and in good condition? Is a **safety switch** (RCD) installed? Is it working?
- Are there any prohibited **gas appliances** in bedrooms or bathrooms?
- Are **smoke alarms** installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a **swimming pool and/or spa pool** installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any **stormwater** problems?
- Is the property in a **flood prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?
- Are all gutters, downpipes and stormwater systems in good working order and in good condition?
- Is the property near **power lines**? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?
- Are there any **significant** trees on the property?
- Is this property a unit on **strata or community title**? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of **noise** or the **emission of materials or odours** into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

Value

- Are there any **illegal or unapproved additions**, extensions or alterations to the buildings on the property?
- How **energy efficient** is the home, including appliances and lighting? What **energy sources** (eg electricity, gas) are available?
- Is the property connected to SA Water operated and maintained **mains water**? Is a mains water connection available? Does the property have a **recycled water** connection? What sort of water meter is located on the property (a **direct or indirect meter** – an indirect meter can be located some distance from the property)? Is the property connected to a water meter that is also serving another property?
- Are there water taps outside the building? Is there a watering system installed? Are they in good working order and in good condition?
- Does the property have **alternative sources** of water other than mains water supply (including **bore or rainwater**)? If so, are there any special maintenance requirements?

For more information on these matters visit: www.cbs.sa.gov.au

Disclaimer: There may be other issues relevant to the purchase of real estate. If you are unable to ascertain enough information about the questions raised in this form and any other concerns you may have we strongly recommend you obtain independent advice through a building inspection, a lawyer, and a financial adviser.

Warning Notice

Financial and Investment Advice

Land and Business (Sale and Conveyancing) Act 1994 section 24B

Land and Business (Sale and Conveyancing) Regulations 2010 regulation 21

A land agent or sales representative who provides financial or investment advice to you in connection with the sale or purchase of land or a business is obliged to tell you the following —

You should assess the suitability of any purchase of the land or business in light of your own needs and circumstances by seeking independent financial and legal advice.

NOTE: For the purposes of section 24B of the Act, an agent or sales representative who provides financial or investment advice to a person in connection with the sale or purchase of land or a business must

- in the case of oral advice - immediately before giving the advice, give the person warning of the matters set out in this Form orally, prefaced by the words "**I am legally required to give you this warning**"; or
- in the case of written advice - at the same time as giving the advice or as soon as reasonably practicable after giving the advice, give the person this Form, printed or typewritten in not smaller than 12-point type.

FURTHER INFORMATION

DOMESTIC ON-SITE WASTEWATER CONTROL SYSTEM

Generally residences within the District Council of Elliston area will be connected to an onsite waste water control system, i.e. a septic tank or aerobic waste water treatment plant.

Land holdings not serviced by sewer or common effluent drainage may have limitations that preclude the approval of any future waste control system, where they are located near bores, dams, watercourses or the high water mark in coastal areas.

The installation of any septic tank system will be subject to the South Australian Department of Health Code, "On-site Wastewater Systems Code" and requires approval by Council.

Any plumbing work or alteration to the waste water control system requires prior approval by Council and must be carried out by a licensed plumber.

COMMUNITY WASTEWATER MANAGEMENT SCHEMES

Community Wastewater Management Schemes (CWMS) are available for some townships in our Council area. If a Scheme is available and the property is not connected to or compliant with the Scheme, then it may be subject to connection requirements in accordance with Council Policy. It is recommended that a check be made with Council to determine whether or not the property is connected.

Throughout townships connected to these Schemes, every property within the defined boundary will be subjected to the connection.

WATER SUPPLY FOR DWELLINGS

In areas where a reticulated water supply is not provided, Council generally recommends that a minimum 22,000 litres be provided in one or more rainwater tanks, connected to the dwelling as a drinking and household water supply. All roof areas from the dwelling and nearby outbuildings should discharge rainwater into the tank(s).

It is important that roof areas and gutters be appropriately maintained and cleaned regularly, to ensure that the water is of adequate quality.

Contact Council for advice on the maintenance of water quality within these tanks.

In areas of Medium or High Bushfire Risk, Council and/or the CFS will have requirements for additional water storage for fire fighting as well as CFS tank fittings and provide access for fire fighting vehicles

FIRE SAFETY REQUIREMENTS - SMOKE ALARMS IN DWELLINGS

It is a State Government requirement under the *Development Act 1993*, that a hard wired smoke alarms are now mandatory in all dwellings.

In short the regulations came into operation on 1st February 1998 and apply to Class 1 and 2 buildings (whenever constructed) under the National Construction Code (formerly the Building Code of Australia). Complying smoke alarms (as defined in the regulations) must have been installed by 1st January 2000.

Where land on which such a building is located is transferred (on or after 1st February 1998), then within six months of the transfer date, smoke alarms powered through a mains source of electricity are required to be installed.

Where a building does not comply with the requirements of the regulations, the owner of the building is guilty of an offence.

MOBILE GARBAGE BINS

Provided the property is not vacant land, one 240 litre and one 140 litre Mobile Garbage Bins (MGB) may have been supplied by Council to this property. This is a weekly service for household waste and fortnightly service for recycling.

Please note the following:-

1. The MGBs are purchased by the owner from the Council.
2. The MGBs are attached to the property owner(s) and **NOT** the property.
3. The contents of the MGBs, the timing of collection, and their placement on the footway etc., shall at all times comply with the policy of Council as per current contracted collection service.
4. Council will only collect the contents of an MGB and will not collect garbage bags, bins and the like. Property owners/occupiers are encouraged to contact Council to ascertain the requirements and procedures affecting the Council's MGB system as they relate to this property.

PROPERTY ACCESS

If access to a Public Road is not currently available from a property, the Owner should contact Council prior to construction of any new access. Council may have requirements in relation to location of such access points, in terms of safety, drainage, underground services, or other matters.

If the property adjoins a road for which Transport SA is responsible, that Department may have further requirements or restrictions.

NATIVE VEGETATION

Where Native Vegetation exists on a property or on a roadside, there may be restrictions relating to its removal, trimming or other disturbance.

Landowners are required to the Native Vegetation Authority prior to undertaking any works which will interfere with Native Vegetation.

GENERAL

The absence of a legal notice on this property should not be interpreted to mean that the premise complies with the relevant legislation administered by Council.

All building work and all changes of land use must be approved by Council prior to any works or activities commencing.

Planning and Land Use Services in the Attorney-General's Department has no record of a Planning and Design Code Amendment on consultation affecting this title

Following the repeal of the Development Act 1993 and its replacement with the Planning, Development and Infrastructure Act 2016 on 19 March 2021, all new Development Applications will now be assessed against the Planning and Design Code (The Code).

The Code is the cornerstone of South Australia's new planning system, and is the single source of planning policy for assessing development applications across the State. The purpose of this is to make the planning process quicker, simpler and more equitable than ever before, affording South Australians greater access to planning information that is consistent and clear. This in turn will help the community to navigate the planning system when building a house, developing a business, or progressing large commercial developments.
The Code has now replaced all South Australian Development Plans.

Further information on the Code is available on the PlanSA Portal.

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting <https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms>. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWaterlicensing@sa.gov.au.
