Estimated Fees and Charges

Indirect costs of your investment: \$131.92

This approximate amount has been deducted from your investment and covers amounts that have reduced the return on your investment but are not charged directly to you as a fee. It is calculated by multiplying the Fund's indirect cost ratio (the ratio of the Fund's management costs to the Fund's total net assets) by your average account balance over the period. Other costs may apply that are not included in this estimate as they are not management costs-please refer to the Fund's PDS.

Total fees you paid: \$131.92

This approximate amount includes all the fees and costs which affected your investment during the period.

Investment returns

This statement does not show your return on investment during the period on an individual basis, as the market price at which you executed your transactions on the ASX is not provided to BetaShares. You can calculate your individual investment return by obtaining the market price of your transactions from the broker who effected your transactions.

Information about the Fund's investment objective and the Fund's investment returns relative to the investment objective over standard time periods is available at the BetaShares website www.betashares.com.au. Performance information is updated monthly.

The following table shows how the Fund has performed over 1 year, 5 years and since inception to 30 June 2021, the end of the Fund's most recent financial year, against the applicable index or benchmark.

	1 year	5 years	Since inception (10-Dec-2010)
QRE	31.64%	19.07%	2.62%
Solactive Australia Resources Sector Index	32.12%	19.59%	2.94%

*On 11 February 2019 the index which the Fund aims to track changed from the S&P/ASX 200 Resources Sector Index to the Solactive Australia Resources Sector Index. The Benchmark Index Return shown above reflects the performance of the old index for the period prior to the changeover date and the performance of the new index from that date.

Returns are calculated using net asset value per unit at the start and end of the specified period and do not reflect brokerage or the bid ask spread that investors incur when buying and selling units on the ASX. Returns are after the Fund's management costs, assume reinvestment of any distributions and do not take into account tax paid as an investor in the Fund. Returns for periods longer than one year are annualised. Past performance is not an indicator of future performance. Current performance may be higher or lower than the performance shown.

This is not a statement of returns for tax purposes. Following the end of each financial year we will send you a separate tax statement to enable you to complete your tax return.
