Subject: Re: Chicken George Super Fund - 2020/2021 Information Request

Hi Rach,

Attached are documents for last year tax return.

OGX liquidated hence written off
see below docs

Have no shares in Oranico gold have had no further correspondence from them.

The transfers on 21/9 and 22/9 I hit the wrong account

The \$398 and \$100 amounts were for subscriptions

The \$5000 from 0780 should have been from 9430 must have hit the wrong button, if it's easier can be put in as a contribution.

Otherwise I can transfer from 9430 back to 0780

If you need any more info let me know.

Regards,

Andy.

NOTICE TO SHAREHOLDERS

ORINOCO GOLD LIMITED ACN 149 219 974 (IN LIQUIDATION) (COMPANY)

I refer to the appointment of Daniel Bredenkamp and I as Joint and Several Administrators of the Company on 6 April 2019 and to our subsequent appointment as Joint and Several Liquidators of the Company on 22 May 2020 pursuant to a resolution passed by the creditors of the Company.

As the Company has been delisted from the Australian Securities Exchange and has since proceeded into liquidation, I have reasonable grounds to believe that there is no likelihood that shareholders of the Company will receive any distribution in the course of the winding up.

I suggest you consult with your tax accountant on this matter however in light of the above, I consider a capital loss on the Company's shares in accordance with section 104-145 of the *Income Tax Assessment Act 1997* may now be claimed for taxation purposes.

Should you have any further questions regarding this matter, please do not hesitate to contact Greg Horley of this office on 08 9322 2022 or by email to horleyg@pitcher-wa.com.au.

Dated this 2nd day of June 2020

BRYAN HUGHES
Joint and Several Liquidator

ORINOCO GOLD LIMITED

liquidators report that due to the quantum of unsecured debt in the administration, there will be no return to shareholders if and when the transaction detailed in their last ASX announcement is completed - accordingly a loss declaration has been issued and the capital loss can therefore be claimed in the financial year the declaration is issued (this declaration was issued on 2 June 2020)	02/06/2020
liquidators summarise the position: the Deed Administrators had been seeking a restructure and recapitalisation of the Company via the ASX which would only be attractive if the Company was to receive a waiver from ASX Listing Rule 2.1, condition 2, known as the "2 cent waiver". Unfortunately recent changes to the ASX's exercise of discretion in relation to reporting and capital raising requirements meant the Company would no longer be eligible to receive the 2 cent waiver and as a consequence, no viable recapitalisation was possible. Creditors resolved to place the Company into liquidation on Friday, 22 May 2020 and the Deed Administrators became the Liquidators (i.e. Pitcher Partners).	02/06/2020
liquidators appointed	22/05/2020
delisted from the commencement of trading on 1 May 2020, pursuant to Listing rule 17.12.	01/05/2020
we understand this company failed and ASX removed the company from listing because its securities have been suspended from trading for an unacceptably long period	01/05/2020
In consideration for the sale of the Company's shares in OBM, the Company is to receive a release from the security held by CRH Purchasing Partner Inc. and 2,500,000 shares in BC Ltd. It was contemplated that BC Ltd would then subsequently complete a reverse takeover of a TSXV listed entity, following the raise of further funds to update and further commercialise the Brazilian Assets. It is now understood that Canadian explorer, Pacific Arc Resources Ltd (Pacific Arc) (NEX: PAV H) has entered into a letter of intent with BC Ltd for a proposed reverse takeover transaction to acquire OGX's Brazilian gold production and exploration assets. Following successful completion of the Transaction, the Company will significantly reduce its indirect ownership of the Brazilian Assets, as it will be left with approximately 1.5% of the issued share capital in Pacific Arc. The ASX has recently advised that the Company will now be delisted from the ASX on 1 May 2020 as a result of its failure to comply with its ongoing financial reporting requirements. In light of the above developments, the Deed Administrators will be convening a meeting of creditors of the Company in early May 2020 to terminate the Deed of Company Arrangement dated 22 May 2019 and place the Company into voluntary liquidation.	27/04/2020
The deed administrators are currently negotiating a restructure and recapitalisation proposal with Chancery Asset Management. Under this, the proponent is to provide a loan of AUD\$1.6M (of which AUD\$350K has been received to date) to the company, which may be convertible into equity (subject to shareholder approval), and will be used to meet the ongoing costs of the external administration and to maintain and preserve the value of the group's operations in Brazil. There is to be a restructure of the Gold Stream Agreement to defer and reduce the repayments to a commercially viable and manageable level given the group's current situation and status of its operations. The company will need to undertake a further capital raising to generate further funds to enable the group to continue its operations. Various shareholders have expressed concerns about the conduct of the former board of directors. In this regard, the deed administrators request that any alleged breaches/offences will be dealt with and further investigated after the proposed DOCA process has run its course.	12/06/2019
At the second meeting of creditors held today, 22 May, 2019, creditors resolved that the company execute a recapitalisation DOCA. The DOCA has since been executed and that Mr. Daniel Bredenkamp and Bryan Hughes were appointed joint and several deed administrators of the company effective today. The DOCA will allow further time to further investigate the company's business, property and affairs and to explore the possibility of a restructure and/or recapitalisation of the company.	22/05/2019
The first meeting of creditors was held on Wednesday, 17 April 2019. At the meeting, the creditors ratified the appointment of the Administrators and elected to appoint a Committee of Creditors.	18/04/2019
The postponed general meeting of shareholders will be cancelled until further notice whilst the administrators consider the restructuring options available to the company. The company has relied on deferral relief under the ASIC Corporations Instrument 2015/251 which provides relief in respect of the company's obligation to prepare, lodge and have audited its half-year financial report and directors' report in respect of the period ending 30 June 2019 and its full-year financial report and directors' report in respect of the period ending 31 December 2019 for a period of up to six months from the date of the appointment of the administrators.	09/04/2019
The general meeting of shareholders scheduled to be held on Thursday, 11 April 2019 will be postponed for 3 weeks to 2 May 2019 whilst the administrators consider the restructuring options available to the Company.	09/04/2019
Daniel Bredenkamp and Bryan Hughes were appointed joint and several administrators of the company. The purpose of the administration is to implement a restructure of the Company's finances and ownership. The ultimate purpose of the restructure is to recapitalise the Brazilian operations so they may reach their full potential.	08/04/2019
Following ASX's decision to suspend the company's shares from trading on 2 April 2019, the rights issue offer outlined in its 28 March 2019 prospectus has been withdrawn and will not proceed on its current terms.	04/04/2019
The securities of Orinoco Gold Limited will be suspended from quotation under Listing Rule 17.3, as ASX has determined that OGX's financial condition is not adequate to warrant the continued quotation of its securities and therefore it is in breach of Listing Rule 12.2. The suspension will continue until OGX is able to demonstrate compliance with Listing Rule 12.2.	02/04/2019

Following completion of the first gold shipment from the Cascavel gold mine, the company has reviewed the performance of the processing plant and mine in the first two months of commissioning and operations. With bullion shipments well below expectations, the board and management have determined that it is in the best interest of all stakeholders to temporarily suspend operations, stand down non-essential staff and contractors while a full technical review is undertaken and the issues resolved. Also, the company entered into a gold stream financing arrangement in May 2015. The agreement contained several milestone/date based defaults that the company believes may be in danger of not being met should the sub-optimal recoveries and ore-scheduling issues not be quickly resolved or should the mine activities be temporarily suspended. The company and CRH have agreed to replace the milestone/date default clauses and the company believes it is close to reaching binding agreement on new terms, including a restructure of the gold stream to provide for a maximum period of up to 300 days in which to restart operations. It is the company's intent to recommence operations as soon as the issues have been satisfactorily resolved. The company is also in discussions with shareholders and other parties regarding funding arrangements as well as negotiations with the 30% owners of Cascavel and other parties that include potential joint venture, partnering and financing arrangements in relation to the broader Faina Gold project.	21/10/2016
