Dear Darren

**YOUR FAMILY LAW MATTER**

I am pleased to advise that I have finally received the original sealed consent orders dated 11 April 2019 from the court.

A copy is attached for your records. You should hand the consent orders to your conveyancer so that he/she can distribute the proceeds of sale of your home in accordance with the consent orders.

The other steps you need to take are as follows:

1. Close the joint bank accounts when the sale settles. Any balance funds in those accounts are retained by you.
2. Sign the back of the registrations papers as "seller" for the Toyota Yaris and hand the registration papers to Lynne. She can attend at the motor registry with a copy of the consent orders and have the car transferred into her name without paying stamp duty.
3. Ask your accountant to attend to the transfer of Lynne's shares in Carbon Energy and Airpower North.

In due course your accountant will also assist you in relation to the superannuation fund.

You should also ensure that your will is up to date as divorce can affect the provisions in a will leaving bequests to your former spouse.

Darren this finalises your matter from a Family Law point of view. I thank you for your instructions in your matter, and wish you and your family all the very best in the future.

If anything requires clarification or if we can be of any further assistance to you, please do not hesitate to contact me.
