Hi to our 16 Robertson participants

Just letting you know that you will see a distribution of funds prior to the end of the year with potential for a small final balance in the new fiscal year. We are distributing funds to ensure we do not show a profit for 20/21, so the development company we are all shareholders are in does not then have a tax obligation. Final balances will be distributed next year if we have any balances after tidying up all accounts. Naturally with the distributions you will have your own tax obligations to apply.

Jeanette is tidying up the figures and we should end up in the mid to high 30% return on investment range I believe. While we knew the market was solid when we entered this contract we had no idea it would continue to strengthen as it has as the year went on. Having said that, this is a solid return for participants on what became a no risk development over the last 12 months. I am pretty happy with the end results, as I hope you all are.

As mentioned there may be a little something extra coming but I will confirm all the final figures for everyone with a full breakdown once we are all done. Will stay in touch. Cheers

Yours sincerely

[See E6b for exact amount confirmation](#)
