Example of Total Fees and Costs

The following example illustrates the combined effect of the fees and costs of your product and an investment in the Advance Balanced Multi-Blend Fund (the Fund) through the product over a 1 year period.

This example is illustrative only and the fees and costs will vary depending on your actual investment:

- **Cost of product:**

If you had an investment of \$50,000 at the beginning of the year and you invested an additional \$5,000 at the end of the year, you would be charged fees of \$160.00¹.

- **PLUS fees and costs for an investment in the Fund:**

0.74% Management costs² and for every \$50,000 you have in the Fund, you will be charged \$370.00 each year.

EQUALS \$530.00³, being the total fees and costs of investing in the Fund through the product.

1. The example above assumes that \$50,000 is invested in the Fund through the product (with an additional \$2,000 held in the Cash Account) for the entire year, the value of the investment is constant over the year and that the additional \$5,000 is invested at the end of the year.
2. This amount includes management fees and indirect costs, which may include performance-related fees and other indirect costs (as applicable) in relation to the Fund. The indirect costs are an estimate in relation to the year ended 30 June 2021. For more information regarding the fees and costs applicable to underlying investment options, please refer to the 'Additional explanation of fees and other costs' section of the PDS.
3. Additional fees may apply. This example does not take into account other fees and costs that may apply to some or all of the available investments, such as Adviser establishment fees, other advice fees, transaction fees, transaction costs, any applicable buy/sell spread charges, Family Law Act fees, or Government or bank fees. The actual fees and other costs incurred are dependent on the investments and or transactions you decide to transact in. Refer to 'Additional explanation of fees and costs' in the PDS for information about the fees and other costs that may apply.

Tax Reports

Most Tax Reports are generally sent in August. However, delays can occur as we need to receive tax information from the investment managers of all investments held in your account during the year before a report can be produced.

NOTES ON REPORT

- 1 Any distributions or dividends paid and yet to be processed by us by 30 June 2021 will not be included in your Account Value. These will be reflected in your next report. If you need further information about your Account Value please call us on 1800 731 812.
- 2 Net Earnings is the investment return on the assets in your account after payment of any transaction costs, government charges, taxes and duties and charges relating to the management of the investment of the assets in your account.
- 3 Change in investment value represents any unrealised gains or losses on the investments you hold as a result of changes in unit prices plus any realised gains or losses from sales made during the period.
- 4 Where applicable this amount includes share transaction fees.
- 5 Fees and costs include administration fees, financial adviser remuneration (including one-off flat dollar fees where applicable), operator fees, GST, reduced input tax credits (on managed investments only) and other expenses. Investment fees are not shown as deductions from your Account – instead they're deducted from the unit price of each managed investment prior to calculating each unit's value.
- 6 Fee rebates include discounts from investment managers and other rebates. They are included as part of your income. Any investment manager may vary the amount of an investment fee rebate or may cease to pay a rebate at any time.

- 7 *These percentages show the net earnings rate of your investment after deducting fees relating to the management of your investments. Returns from 1 July 2018 do not include adviser fees. Returns prior to 1 July 2018 include all fees and costs including adviser fees where your account value was greater or equal to \$2000. For below \$2000 accounts returns did not include any fees and costs. The Net Rate of Return shows the net earnings rate of your investment after deducting fees relating to the management of your investments. The methodology used to calculate Net Rate of Return takes into account the opening and closing balances, the value and timing of the transactions and the length of time the transactions stayed in the account. All these factors together may in certain scenarios, generate large positive or small negative percentages and/or percentages with opposite signs to the reported Net Earnings on Investments.*
- 8 *This represents the compound average return per annum over the indicated period.*
- 9 *The price used was the last cumulative offer price available at the time this report was produced. In some cases prices may not be at 30 June 2021 due to non availability at date of producing this report or where investment pricing may be suspended. In these cases the investment value shown may not reflect your actual redeemable value.*
- 10 *This represents the estimated unrealised capital gain or loss that would have arisen for tax purposes if you sold all your investments on 30 June 2021.*
- 11 *Other costs - This approximate amount has been deducted from your investment and covers amounts that have reduced the return on your Investments but are not charged as a fee.*
