

# **Investment Strategy**

## **Randhawa Superannuation Fund**

### **Background:**

The investment strategy outlined below represents an expansion and clarification of the Investment Strategy agreed at the formation of Randhawa Superannuation Fund (“the Fund”). This Investment Strategy replaces the Investment Strategy document dated 8 December 2020.

### **Objectives:**

The objective of the fund is to:

- Provide superannuation benefits to members and their dependants to meet their retirement needs.
- Ensure that appropriate mixes of investments are held by the fund to support these needs
- Ensure the fund has sufficient liquidity at all times to meet all commitments
- Maximise the tax effectiveness of fund investments thereby delivering the best medium term after tax return for members.

The Investment objective of the trustees is to aim to achieve real medium to longer-term growth. In recognition of the investment time frame, the fund will have a high proportion of defensive assets in the portfolio.

### **Investment Choice:**

The Trustees have determined the fund’s investments may include but not be limited to all or one of the following:

- Direct equities, stocks and derivatives including participation in dividend reinvestment programs and right issues, including the use of geared instalment warrants:
- Property trusts and associated investments:
- Managed investments and associated products:
- Direct residential, industrial and commercial property investment [including geared property investments purchased using allowable limited recourse borrowing arrangements]:
- Deposits and investments with banks and other financial institution securities including Term Deposits, Debentures, Secured and Unsecured Notes and Bonds:
- Any other investment that the trustees may feel prudent to achieve the objective of the fund.

The Trustee may from time to time decide to seek professional advice from Accountants, Solicitors or Financial Planners in the formulation or implementation of this or any future investment strategy.

In formulating this strategy the trustees have taken into consideration relevant features of the various investments in accordance with both the fund's objectives and appropriate legislation.

In drafting this investment strategy, the trustees have taken into account all of the circumstances of the fund, including:

- the risks and likely return associated with each investment;
- the range and diversity of investments held by the fund;
- any risks coming from limited diversification;
- the liquidity of the fund's investments;
- the ages and preferences of its members;
- expected cash flow requirements; and
- the ability of the fund to meet its existing and prospective liabilities such as paying benefits to its members.

## **Policies:**

*The policies adopted by the Trustees in order to achieve these objectives are:*

- Regular monitoring of the performance of the fund's investments, the overall investment mix and the expected cash flow requirements of the fund.
- Re-balancing the fund's investment portfolio due to changes in market conditions through asset sales and new investments as appropriate.

The Trustees will aim to follow the investment strategy, however, they will at all times reserve the right to change the investment mix depending on the market situation and opportunities available to better meet the objectives of the fund.

A copy of the Investment Strategy of the fund will be available to members of the fund on request.

## **Risk profile and risk tolerance:**

The Fund has a medium time horizon. Further the Members wish to have a conservative asset allocation thereby limiting volatility of returns. [The members have existing equity and property investments outside superannuation and are familiar with the variability of both returns and capital values which are associated with such investments.]

Members understand

- the trade-off between investment risk and medium term capital and income growth and have indicated stability is a priority
- Investment risk is borne by the members, as fluctuations in investment returns will affect the level of benefits available to members.

## **Insurance:**

The Trustees will assess the need of insurance for all members and will seek insurance advice where necessary to ensure all members are adequately insured. Insurance policies may be held by the fund or by members personally.

## **Liquidity:**

The Members of the Fund do not expect to access their superannuation prior to age **65**. Accordingly there is no anticipated benefit payment in the next 8 years. Cash in excess of anticipated liquidity requirement will be invested in accordance with the Fund's investment strategy.

## **Asset Allocation:**

The targeted asset allocation takes into account the benefits of a diversified asset mix, however, given the investment time horizon of the fund (which is based on the members life expectancies) and the members assets outside of superannuation, the allocation will be focused on capital and generating stable income streams.

The final targeted asset allocation will be in the following ranges:

The fund will have a strong bias towards cash and term deposits for the short term. In the medium term, The Trustees may consider a diversified mix of listed Australian shares paying fully franked dividends with some cash held to meet liquidity requirements in both cash accounts and term deposits.

<b>Growth Assets</b>	<b>Indicative long term range</b>
• Australian listed equities	0% - 20%
• International listed equities	0% - 20%
• Australian listed property	0% - 20%
• [Direct Property]	0% - 20%
• [Collectables]	0% - 20%
<b>Defensive assets</b>	
• Cash and term deposits	1% - 100%
• Australian cash and bond funds	0% - 20%
• International cash and bond funds	0% - 20%
• Bullion	0% - 20%
