## Sales History

Sale Date	Sale Price	Sale Type
10 Jul 2018	\$540,000	Unknown

Estimated Value as at 27 June 2022. An automated valuation model estimate (Estimated Value) is a statistically derived estimate of the value of the subject property. An Estimated Value must not be relied upon as a professional valuation or an accurate representation of the market value of the subject property as determined by the valuer.

A Forecast Standard Deviation is an estimate of the variation between the modelled estimate and the market value of a property. A smaller FSD indicates that our estimate of value is likely closer to the true market value of a property than a larger FSD.
