Dear Liz

**Barry and Sue Albrecht / Albrecht Family Superannuation Fund**

Herewith copies of the following:

- Investment Strategy (the one I prepared and the one you sent)
- Minute of trustees meeting 15/6/2012
- Notice of Intention to Claim a Tax Deduction for Superannuation Contributions (2) and Receipt of Member Notices (2)
- Request to commence transition to retirement pension by Barry Albrecht and Susan Albrecht
- Letter from trustees of Albrecht Family Superannuation Fund approving request to commence account based transition to retirement pensions for Barry and Susan Albrecht
- Binding Death Nominations for both Barry and Susan Albrecht

Please contact me if required.

Yours sincerely

John Fisher CFP, Dip FP, F Fin

Authorised Representative, Count Financial Limited

Director of John Fisher Financial Services Pty Ltd.

## ALBRECHT FAMILY SUPERANNUATION FUND

### INVESTMENT OBJECTIVES AND STRATEGIES

#### Investment Objective:

The sole purpose of the fund is to provide benefits to Members upon their retirement, attaining a specified age, death or on health or financial reasons.

The objective of the Fund is to achieve reasonable long term growth with moderate fluctuations in return. The average investment return for the plan should be at least 1.0% per annum above inflation (CPI) when measured over a three year period.

#### Investment Strategy:

The trustees, have set the following strategy and guidelines for investment of funds belonging to the Fund having regard to the following:

- \* the risk of the investment;
- \* the diversity of investments of the Fund as a whole;
- \* the liquidity of the investment; and
- \* the ability of the fund to discharge its present and future liabilities.

The overall strategy is to invest in either cash, real property, shares, unit trusts or a combination thereof for the purpose of providing the members of the plan with long term growth. Whilst the trustees are conscious of the need to provide the members of the plan with capital gains over the medium to long term, they are also conscious of the need to diversify and spread the risk associated with investment in growth assets.

In making a decision on the types of investments made by the Fund, the Trustees have consulted with the members in this regard. They have taken into account the members overall risk profile and their concerns about various investment opportunities.

With this in mind, the trustees will, from time to time, seek professional investment advice in order to assist in the process of determining what investments are suitable for the Fund and also taking into account the concerns of the members.

The trustees also acknowledge the need to invest in areas where some assets can be readily converted to cash, thus allowing benefits to be paid when they fall due.

Taking the above into account, the trustees have determined that the following guidelines should be adhered to in placing and reviewing investments by the Fund in the coming 12 month period.

Property	0	-	100%
Equities	20	-	60%
Fixed Interest	0	-	25%
Cash / Short Term Deposits	0	-	100%
Other/Alternatives	0	-	40%
International Equities	10	-	50%

This plan's strategy will be reviewed on occasion and updated if any modifications are required.

(Approved at meeting of Trustees dated 15th June 2012)

Barry Albrecht  
Trustee

Susan Albrecht  
Trustee

Date: 15th June 2012

# INVESTMENT STRATEGY

The investment strategy of a superannuation fund is similar to a business plan. It documents the objectives and strategies to achieve success. An investment strategy is required as part of government regulations for superannuation funds.

The investment strategy must consider a variety of matters, notably cash flow (contribution levels and benefit payments), risk, return, diversification, and liquidity. The actual investment strategy will depend to a large degree on the needs of you/the members, particularly your age (as it determines the investment time horizon), your other assets and individual retirement requirements.

The fund trustees have indicated that the fund investment strategy is for a Growth investment approach.

As a means to achieving this objective, the Trustees have determined fund's investment may include but not limited to all or one of the following

- Direct equities, stocks and derivatives and including the participation in dividend reinvestment programs, rights issues and the like.
- Property trusts and associated investments.
- Managed investments associated products.
- Direct residential industrial or commercial property investment.
- Bank and other financial institution securities including term deposits, debentures, Secured and Unsecured Notes and bonds.
- Any other investment which would not prejudice Government Approval of the fund.

We have taken into account the need to provide sufficient liquidity to enable the fund to meet its obligations as and when they fall due including pension payments to members of the fund, taxation obligations, and accountants and auditors fees.

The following table shows the recommended benchmark asset allocation and appropriate asset class ranges:

We recommended that the following investment strategy be created for the Albrecht Family Superannuation Fund. The recommended investment strategy is extremely flexible with respect to the asset classes that can be invested into by the Fund, thereby assisting you to diversify the Fund's portfolio more extensively. The following table shows the recommended benchmark asset allocation and appropriate asset class ranges:

Asset Class	Lower	Upper	Benchmark
Australian Equities	20.00	60.00	43.00
International Equities	10.00	50.00	25.00
Property & Infrastructure	0.00	30.00	17.00
Fixed Interest (FI):	0.00	25.00	13.00
Cash:	0.00	100.00	2.00
Alternatives (ALT):	0.00	20.00	0.00
Other:	0.00	20.00	0.00

## **Investment Strategy**

The investment strategy of a superannuation fund is similar to a business plan. It documents the objectives and strategies to achieve success. An investment strategy is required as part of government regulations for superannuation funds.

The investment strategy must consider a variety of matters, notably cash flow (contribution levels and benefit payments), risk, return, diversification, and liquidity. The actual investment strategy will depend to a large degree on the needs of you/the members, particularly your age (as it determines the investment time horizon), your other assets and individual retirement requirements.

The fund trustees have indicated that the fund investment strategy is for a 'Growth' investment approach.

The recommended investment strategy is extremely flexible with respect to the asset classes that can be invested into by the Fund, thereby assisting you to diversify the Fund's portfolio more extensively. The following paragraphs cover the main factors that need to be considered when constructing an investment strategy, including diversification and liquidity, and provide guidelines for the Fund on these areas.

We recommended that the following investment strategy be created for the Albrecht Family Superannuation Fund. The recommended investment strategy is extremely flexible with respect to the asset classes that can be invested into by the Fund, thereby assisting you to diversify the Fund's portfolio more extensively. The following paragraphs cover the main factors that need to be considered when constructing an investment strategy, including diversification and liquidity, and provide guidelines for the Fund on these areas:

### **Growth Investment Strategy**

**Investment strategy:** The investment strategy of the fund is to invest in a balanced portfolio with exposure to all asset classes including property, domestic and international equities, fixed interest and cash.

**Investment objective:** The fund's investment objective is to achieve tax-effective capital growth over the medium to long-term (6 years) from property securities and equities, both domestic and international, whilst accepting a moderate level of risk. A negative return would be acceptable 1 in 5.5 years. A return objective of at least CPI + 3.5% over rolling three year periods is sought.

**Risk:** Assets associated with this investment strategy may exhibit medium price volatility. It is possible that some investments may show a loss in the medium-term. With a high exposure to growth assets, this should increase the fund's risk profile to a high level.

**Liquidity:** Cash must be held within the fund so that it is always in a position to meet its expenses. Especially where a fund's assets produce irregular income, a minimum of 5% of the fund should be in held in liquid cash funds and higher than this so that pension payments can be met from liquid assets.

The fund may elect to keep roughly 12 – 18 months pension payments in cash. Purchases will not be approved unless the fund will have the necessary cash when settlement is due.

Should the fund's cash reserves be insufficient to meet its short-term liabilities, there must be a contribution of enough money or the trustee is empowered to sell sufficient assets to meet those liabilities. It is envisaged that should members or their dependants require payment of benefits, they will be permitted to take an in specie transfer of assets in lieu of cash (if permitted by superannuation law at the relevant time).

**Diversification:** Asset class diversification is provided for by the ranges listed below in line with the investment strategy, which may be reviewed and adjusted over time with the trustees' approval. Diversification within the asset classes will reduce the risk to the portfolio from movement in the price of individual assets. Where the trustee is satisfied that a lack of diversification does not present any danger to the fund's ability to pay benefits, a greater commitment to an individual asset is permitted.

**Asset category and class exposure:** The investment strategy may be initially implemented in a staged manner. Once established however, the fund must comply with its weighting to cash, fixed interest and growth asset categories at all times. The trustee can on a case-by-case basis approve weightings (up to 5%) outside asset class ranges.

The fund trustees have indicated that the fund investment strategy is for a **Balanced** investment approach. This will allow for the investment of funds into the following asset classes:

Asset Class	Range	Benchmark
Cash	0%-100%	2%
Australian fixed interest	0%-25%	13%
Alternatives	0%-20%	0%
Other	0%-20%	0%
Australian equities	20%-60%	43%
International equities	10%-50%	25%
Property	0%-30%	17%

#### Portfolio Characteristics

Suggested minimum time frame for investment	Six years
Level of short-term investment risk	High
Return objective (relative to other investment strategies)	High

Overall asset mix	Growth (85%) /income assets (15%)
-------------------	-----------------------------------

### The Fund Asset Allocation

The level of shares and property in your portfolio is dependent on your willingness to tolerate short-term price fluctuations (rises and falls) in order to achieve longer-term growth.

The following table summarises the nature of each risk profile and the potential return expectations.

Investment Profile	Capital Secure	Conservative	Moderate	Balanced	Growth	High Growth
<b>Investment Term</b>	1-2 years	2-3 years	3-4 years	4-5 years	6 years	7 years
<b>Benchmark Net Return Objective</b>	CPI Plus: 2.0%	CPI Plus: 3.0%	CPI Plus: 3.7%	CPI Plus: 4.5%	CPI Plus: 5.0%	CPI Plus: 5.7%
<b>Asset Balance Growth v Income</b>	0 / 100%	26 / 74%	48 / 52%	68 / 32%	85 / 15%	100 / 0%
<b>Historical incidence of a negative return (%)*</b>	1.02%	4.60%	12.53%	16.62%	18.41%	20.72%

\*January 1971 – June 2004

Please note that the return objective is an average estimate only, over the investment term.

Individual fund members have stated a preference for the following asset allocation for their investment funds as reflected in the investment strategy.

Member Name	Investment Profile
Barry	Balanced
Susan	Balanced

This can be expected to provide the superannuation fund with reasonable capital growth in the long term. By investing over a long term, the risks associated with investing in the sharemarket and property market are reduced and the rewards are significantly greater than fixed interest returns.

The Trustees  
Albrecht Family Superannuation Fund  
PO Box 1071  
Humpty Doo NT 0836

Dear Sir

I wish to make application to commence a transition to retirement pension from my member account.

I confirm that I have reached my preservation age having turned 55 on 23/7/2006 and my member account balance as at 30 June 2011 was \$341,648.

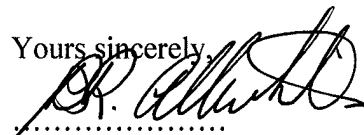

The amount of monthly pension payments requested is for an annual rate of pension ~~\$22,141~~ <sup>\$11,151</sup> for the 12 month period from 1<sup>st</sup> July 2012 to 30<sup>th</sup> June 2013 and I understand the amount of monthly benefits from 1<sup>st</sup> July will need to be recalculated as at that date to determine the minimum and maximum pension payments that may be paid in the 2013 financial year.

I understand that the minimum payments for the 2013 financial year will be 3% of my member account balance and the maximum will be 10% of my member account balance as at 1<sup>st</sup> July 2012.

I request the trustee of the Albrecht Family Superannuation Fund to withhold and pay any PAYG tax installments in respect to my pension payments.

This application replaces any previous instructions as regards the payment of my pension benefits.

Yours sincerely,

Barry Robert Albrecht

Susan Ena Albrecht

Letter to member commencing a pension

Dear Barry,

Your application to commence an account-based transition to retire pension from (1<sup>st</sup> July 2012) from the Albrecht Family Superannuation Fund (SMSF) has been approved.

Under the superannuation legislation, you are required to draw an annual pension amount equal to a minimum of \$10,249 and the maximum you can receive is \$34,165.

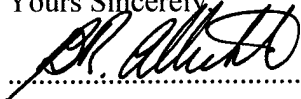

The minimum annual amount, both before and after tax and the pension tax offset, for the 2012 financial year has been calculated as \$10,249.

Please confirm in writing your desired annual pension amount before tax. Note that the annual minimum pension amount is recalculated each year. Accordingly, this will be advised to you before 1 July of each year.

Please also advise if you would like your desired annual pension amount paid periodically (monthly, quarterly, etc).

If you wish your pension payments to be made directly to a bank, please provide full details of your bank accounts, including the account name, bank, branch address, BSB number and account number.

Yours Sincerely,

..... (Fund accountant/Trustee).

Letter to member commencing a pension

Dear Sue,

Your application to commence an account-based transition to retire pension from (1<sup>st</sup> July 2012) from the Albrecht Family Superannuation Fund (SMSF) has been approved.

Under the superannuation legislation, you are required to draw an annual pension amount equal to a minimum of \$9,932 and the maximum you can receive is \$33,106.

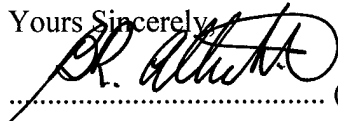

The minimum annual amount, both before and after tax and the pension tax offset, for the 2012 financial year has been calculated as \$9,932.

Please confirm in writing your desired annual pension amount before tax. Note that the annual minimum pension amount is recalculated each year. Accordingly, this will be advised to you before 1 July of each year.

Please also advise if you would like your desired annual pension amount paid periodically (monthly, quarterly, etc).

If you wish your pension payments to be made directly to a bank, please provide full details of your bank accounts, including the account name, bank, branch address, BSB number and account number.
