## Further Explanatory Notes:

- 1) CHES Holding Statements are similar in form to a bank statement. They will detail those transactions that occurred in a calendar month and will progressively calculate the holding balance brought forward to the closing balance at the end of each month.
- 2) CHES Holding Statements are only issued if there has been a change in your CHES holding balance. You will receive a CHES Statement shortly after the end of the month for which security in which a transaction changed your CHES holding balance.
- 3) CHES Holding Statements for holdings in renounceable rights registered in CHES are not routinely issued. However, a statement for these securities can others can be requested through your CHES Sponsor or the Share Registry, should they may change your lot.
- 4) An Ex or Cum status may appear if the transaction is processed between the Ex Date and the Record Date for a corporate action, i.e. the Ex Period. An entitlement will be included for a buyer when the status is Cum and for a seller when it is Ex. Contact your CHES Sponsor for further details.

## Further Explanatory Notes:

The 2018-2019 holding statements are similar in format to a bank statement. They will list all deposits to the account, all account charges and withdrawals, and all other activity on the holding holding brought forward to the closing balance at the end of each month.

21. If the Holding Statement is not filed, there has been a change in your GHS's holding balance, and will require a GHS's Statement of Activity filed by the end of the month for each entity in which it owns a significant amount of GHS's (as determined by the Holding Statement).

4. CH21's Billing Statement for trading in energy commodities reported in CH21's original monthly filing that shows a common error for the securities in which can be corrected through our CH21's Open on the Blockchain listing through their on-chain change portal.

41. An  $\mathcal{L}$ -structure  $\mathcal{M}$  is a  $\mathcal{L}$ -structure if and only if the domain of  $\mathcal{M}$  is a set and the functions and relations of  $\mathcal{M}$  are functions and relations on the domain of  $\mathcal{M}$ .

1. The first step in the process is to identify the problem. This involves defining the problem, understanding its scope, and identifying the stakeholders involved. Once the problem is identified, the next step is to analyze it. This involves gathering data, identifying causes, and determining the impact of the problem. The third step is to develop a solution. This involves brainstorming ideas, evaluating options, and selecting the best solution. The fourth step is to implement the solution. This involves developing a plan, allocating resources, and executing the plan. The final step is to evaluate the results. This involves monitoring progress, assessing outcomes, and making adjustments as needed.
